

SEASIDE SOUVENIRS

For Your Dolls

(Print this page on card stock.)

Post Cards: Cut out front/back sides together. Fold, and glue so that you have a front and back.

Don't forget to write in your favorite seaside location!

Helpful Hint: After you glue front and back parts together, you may need to trim the edges to make them match exactly.

Paddle Fans: Cut out front / back sides together. Glue a small flat stick on the bottom of the inside of the fan for the handle. Fold and glue the front & back sides together. You can also make a small ribbon loop instead of the handle, if you'd like it to hang the fan from your doll's wrist.

Helpful Hint: You can add a little pizzazz to your fans by embellishing them with glitter, lace, ribbons, etc.!
