

# "Welcome Neema"

## Bouquet of Rolled Paper Flowers

Welcome home, Neema!

Our new friend has finally arrived and no welcome would be complete without a beautiful bouquet of flowers given in friendship! Here are some easy to make rolled flowers that you can make to welcome your newest doll!

## Instructions:

1. Cut out rosettes and leaves. (You can use the ones provided, or use them as templates to cut flowers out of colored paper.)
2. Start rolling it from the middle/ Use hot glue to keep it rolled tightly. Keep rolling it to the end of the template.
3. Place flower on a flat surface and carefully loosen the coil until it's the desired size. Put hot glue on the base and secure the rolled flower.
4. Attach flowers and leaves to stems (pipe cleaners or floral wire) as desired.
5. Roll "petals" outward, and give leaves a bit of a natural curl for added realism.

You can decorate your flowers with glitter spray, gems, beads, etc. You can even make extra leaves to make extra greenery to put in your bouquet. You can use these flowers in miniature vases, or even a beautiful accent in your doll's hair!

Let your imagination bloom!
